

To Whom It May Concern,

My wife Rosemary and I would like to thank Glen from 21st Century Tours for sending us on the trip of a life time to Sri Lanka.

Glen completely customised our tour to the leisure activities that we wanted to do. Glen emailed us personalised itineraries and it was no effort for him to rearrange certain activities, or add in extra ones before we made up our minds on which activities we wanted to have included.

The tour was mainly for me to play golf on some of the courses in Sri Lanka. Here is one of the many highlights of our trip.

The Grand Hotel in Nuwara Eliya is right next door to the golf course. We walked to the course and played our arranged 18 holes. After the game we stayed on for lunch and happened to have a yarn with the young golf pro. He invited us back to the course at 4.00pm that day for 9 more holes ..no extra green fees. He just wanted someone to play golf with!!! On the elevated 200 metre par 3 he hit a hole-in-one!!! We all thought that was pretty good.

On the way back to Colombo we stopped for lunch at a restaurant next to a fast flowing river. Our guide, Wasanta asked if we had ever been white water rafting...er no! So he offered to take us white water rafting. It was great. The river was used to film The Bridge on the River Kwai in 1957. It was not filmed at the real location in Thailand because we have been to the real bridge and its nothing like the film. As we floated down the river we saw the foundations for the bridge that was used in the film.

The guide that Glen had set up for us was wonderful. Nothing was too hard for him and he was always very reliable. The hotels were impeccable and the staff were so accommodating. I am an avid golfer and thoroughly enjoyed experiencing the greens of Sri Lanka!

The service at 21st Century Tours is second to none and I would have no hesitation in asking them to plan our next Sri Lanka get away!

Again, thank you to Glen and everyone at 21st Century Tours for planning our amazing trip.

Garry and Rosemary Grace
